Outline of the policy plan

Please answer the questions below or provide an URL to the policy plan after the last question about the policy plan. The online policy plan should at least provide answers to the questions about the policy plan asked here.

What are the institution's activities? When are which acitvities to be carried out? And how do the activities contribute to achieving the institution's objective?

The Foundation will serve primarily as a grant-making charitable foundation, providing support to beneficiaries. In some circumstances the Foundation may also serve as an operating foundation, developing and implementing its own projects that are aligned with the Foundation's purposes as described above. In addition, the Foundation may undertake targeted media, communications, engagement, and convening activities in order to raise awareness of the Foundation's work, and of the critical issues that it is addressing through its efforts, as well as the specific organizations it is supporting.

How does the organisation generate income or revenue?

The Foundation receives gifts from persons, foundations and corporations all over the world. These can be gifts directed to specific goals where the donor indicates their preference in the use of the gift. Ultimately, the Management Board of the Foundation decides the target of the gift, taking into account the donor's wishes. Should it not be possible to honor the donor's wishes, the Management Board will communicate this with the donor. Should the donor not wish to comply with the Management Board's policy, the gift will be returned. In the case of gifts where the recipient is not specified the donor may leave the decision to the Management Board.

How and for what purposes are the revenues spent?
If your organisation holds capital, please fill in here where and how this capital is held (e.g. savings account, investments, etc.)

The Foundation will primarily spend revenues to support credible, legally-registered non-governmental organizations and charitable entities in good standing that are implementing projects related to the Foundation's purpose.
The management of the capital accrued by the Foundation will take place in the following ways:
- Savings account. A part of the accrued capital will be deposited by the Foundation in a savings account that will accrue interest at the current market rate.
- The provision of loans. The Foundation may invest a part of its equity in interest-bearing loans. This can be qualified as portfolio investment.
- Management of an investment portfolio.
